

DISCOLORATION WARRANTY

All Lauxes floor grates are 100% UV Stabilised, meaning they are suitable for both indoor and outdoor applications. A minimum 25-year guarantee of no fading and discoloration* is presented on all Lauxes Grates products.

Colour changes arising from improper/insufficient/negligence care or installation not in accordance with AS/NZS 3500.2 or manufacturers specifications will void the product warranty.

*Lauxes floor grates may slightly vary in colours due to environmental factors during manufacturing processes.

**Grates manufactured prior to the UV Stabilisation release (September 2021) will not be suitable for outdoor applications, voiding any fading/discoloration guarantee.

If your Lauxes grates are damaged or if you have any other concerns, please email as much information as possible, including images and your details to admin@lauxesproducts.com.au

Alternatively, you can call our HQ on 1300 214 510.
