ABOUT

Lauxes Grates is one of Australia and New Zealand's most exclusive designers and manufacturers of versatile linear drainage solutions.

As industry leaders, Lauxes Grates services approx. 1600+ distributors via our warehouses in Queensland, Victoria, Western Australia and soon to be New South Wales.

With over 20 years of combined trade experience, our developers have created innovative anodized aluminium grates that are suitable for all indoor and outdoor areas.

Offering on-site customisation, our grates offer a quick installation, seamlessly blending with all property types.

Waterproof and corrosion free, all Lauxes grates come with a lifetime rustproof guarantee, giving you grate peace of mind.

Our creativity, industry knowledge and constant innovation keeps us at the forefront of the tiling and plumbing industry.

From high traffic outdoor spaces to indoor bathrooms, Lauxes Grates are a popular choice for builders, architects, tilers, plumbers and homeowners alike.

Meeting all specifications and regulations, our products are certified under the Australian WaterMark Scheme (WMTS 040-2021).

WHAT SETS US APART FROM ALL THE OTHERS?

Here at Lauxes Grates we live and breathe our four core values; We Don't Do Boring, We Make Shit Happen, We Stay Hungry and, We Speak POFL (positive outcome focused language).

Together we know we can achieve grateness! Culture is key as we are always thinking of new and innovative ideas, striving to improve processes and introduce new products, whilst constantly evolving and responding to change.

Our team of industry professionals are happy to help you every step of the way. Whether you need help in choosing the most suitable linear floor grate for your project or guidance regarding the installation of a grate... we've got you covered. We are committed to changing the world one grate at a time and we won't stop until we get there!

- ✓ ALL GRATES COME WITH A LIFETIME RUSTPROOF WARRANTY
- ✓ AVAILABLE IN MULTIPLE WIDTHS AND DEPTHS
- ✓ CERTIFIED UNDER THE WATERMARK CERTIFICATION SCHEME
- ✓ EASILY CUSTOMISABLE ON SITE WITHOUT LENGTHY DELAYS
- ✓ AVAILABLE IN MULTIPLE COLOURS
- ✓ UV STABLE - 25 YEAR WARRANTY AGAINST FADING

With over twenty years of combined trade experience, our developers have created innovative anodised aluminium grates that are suitable for all indoor and outdoor areas

What is Anodising?

Anodising is an electrolytic passivation process where the porous on the surface of metals are coated to an oxide layer. This process increases the thickness of the natural oxide layer, making the metals resistant to corrosion and abrasion.

Why Anodise Aluminium?

Anodising the aluminium makes the metal stronger and more durable, by adding an oxide layer that is almost as strong as diamond. The oxide on aluminium is naturally corrosion resistant, making it a very hard, abrasive resistant and an insulator.

In terms of aesthetic, the anodising process adds a coloured anodic film that will retain and enhance the aluminium inherent beauty. These aesthetics and durability features make anodised aluminium the ideal material for residential, commercial and industrial projects.

Cleaning

Linear floor grates are easier to maintain than regular grates. Soapy water is our recommended method of cleaning a Lauxes grate. Mild detergents can be used to wipe and remove any matter or debris caught in the drainage area. Use a nylon cleaning pad or brush to run over the surface, rinse with warm water and dry with a clean cloth. Do not use abrasive or harsh chemicals such as acidic products on the grates. Also, do not use excessive force to remove any stubborn marks.
