GRATES

Cutting Instructions & Installation

For ease of cutting Lauxes grates, we recommend using a compound mitre saw fitted with a multi-material cutting blade 80 tooth or more.

* During installation ensure the grate does not come in contact with any wet cement based products.

1

Cut your Lauxes grate to the desired length.

2

Remove existing plastic top tray.

3

Replace with new Lauxes Storm Water top tray.

Installation to be by a licensed plumber and in accordance with AS/NZS 3500.2.

Disclaimer: All Lauxes grates and accessories hold WaterMark Certification in accordance with WMTS - 040.
